Sexual Wellbeing: Why It Matters for Individuals Who Cause Harm

Additional Handouts

1. **Link to my website:** <https://www.janefleishman.com/> which has all sorts of free materials about sex and sexuality. As you probably know, my major focus is older adults' sexuality but I love talking with people in the sexual violence prevention world as well!
2. **Link to my new course:** <https://jane-fleishman.mykajabi.com/> it's called Sex After Sixty: Challenging Ageism One Sexual Pleasure at a Time
3. **Link to my podcast:** <http://www.ourbetterhalf.net/> I'm a co-host with three other sexuality professionals and we drop two episodes a month with interviews with sexuality researchers, educators, and clinicians.
4. **Link to my book:** <https://www.broadsidebooks.com/book/9781558968530> I gave you a link to my local bookstore because I try to get people to not go to Amazon (you know that of course!), but if you have a different way to do that, please do so. My book is a collection of oral histories of LGBTQ elders talking about sex, activism, and aging. And it's a wonderful group of people!
5. **Link to my TEDx Talk:**

it's not too long and it's all about aging and sexuality, done in an entertaining way.
