

Ethical and Clinical Issues in Treating Non-Justice-Involved People with Pedophilia and/or Hebephilia

Presenter: Ainslie Heasman, PhD, C. Psych

Recorded on: August 20, 2021

Length: 4 hours

- 1 hour and 30 minutes**
- Literature on non-justice involved individuals with pedophilia and/or hebephiliac.
 - Considerations regarding whether provision of treatment to this population is a moral duty.
 - Known sexual risk factors for child sexual abuse and sexual recidivism as relevant treatment targets.
- 30 minutes**
- Recent research examining strategies for engaging this population in treatment, as well as training opportunities.
 - Review and discussion of mandatory reporting legislation in Canada, the United States and various other countries.
- 2 hours**
- Identifying and addressing ethical dilemmas that arise in a clinical setting when working with this population.
 - The opportunities, challenges and risks to the client, the clinician, and the therapeutic relationship with respect to making (or not making) a mandatory report.
 - Case examples of treatment and treatment processes with a focus on ethical decision-making.
